

FISH AND GAME PROTECTION.

Senator Quarrels' Bill Affecting the Indian Territory.

Washington, Jan. 24.—Senator Quarrels, of Wisconsin, who is a member of the senate committee on Indian affairs and who has given much attention to the Indian question, has introduced a bill providing for the protection of fish and game in the Indian Territory. The measure is aimed to prevent the destruction of the game in the territory and to end the work of the professional fishermen who make a living by supplying fish from Indian Territory streams for the St. Louis market. The bill prohibits the killing of wild turkey except from November to April, September to make the only month open for prairie chicken and grouse. Quail may be killed from October 15 to February 15. It is also provided that it shall be unlawful to ship or convey any fish or game whatever from the Indian Territory. It is declared unlawful for any person not resident of the Indian Territory to either hunt or fish in the territory without a permit from a United States Indian agent. A fee of \$1.50 a day shall be charged for the permit, and the fund derived from this source shall be used to pay the expenses of detection and prosecution of violators of the law. The use of seine for fish and nets and traps for birds and game are specially prohibited. A fine of not less than \$25 nor more than \$500 is provided for each violation of the law.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitutional system and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

A Profitable Investment.

"I was troubled for about seven years with my stomach and in bed half my time, says E. Demick, Somerville, Ind. 'I spent about \$1,000 and never could get anything to help me until I tried Kodol Dyspepsia Cure. I have taken a few bottles and am entirely well.' You don't live by what you eat, but by what you digest and assimilate. If your stomach doesn't digest your food you are really starving. Kodol Dyspepsia Cure does the stomach's work by digesting the food. You don't have to diet. Eat all you want. Kodol Dyspepsia Cure cures all stomach troubles.—City Drug Store.

TO PROTECT TERRITORIAL MINES.

Bill Requiring More Air in Mines Reported Favorably.

Washington, Jan. 28.—The house committee of mines and mining has reported favorably the bill amending the acts of 1890 for the protection of the lives of miners in the Territory. The report states the Indian Territory, where the greater portion of the coal is mined, is wholly unrepresented in congress and in legislating for this Territory it will to ascertain what State legislation has been found effective in adjoining States. This bill proposes to amend the law by making the amount of air supply the same as is provided under the laws of Kansas, increasing the supply from 3,500 cubic feet per minute for fifty men to 5,000 cubic feet.
